

EMPLOYING PRINTERS TO HAVE SMOKER

Banquet Not Wanted by Men Who Come for Business.

DELEGATES COMING TO BE HERE EARLY

Session of Executive Committee Monday to Open Proceedings.

The program for the entertainment of the members of the United Typothetae of America, which holds its twenty-fourth annual convention in Washington this week, does not provide a banquet to serve as a befitting wind-up of the convention, but in its place a smoker is provided at the Raleigh for tomorrow night.

A number of the visiting employing printers arrived in the city today, and all of them are expected to be within the precincts of the Capital by sundown tomorrow. Delegations will be met during the day by special committees made up of employing printers living in Washington and Baltimore.

Tomorrow afternoon the executive committee of the Typothetae will hold a brief session at the Raleigh Hotel, which will serve as the headquarters for the association during its stay here. In the evening a large informal reception and smoker will be held in the banquet room of the hotel and several thousands of persons are expected to attend during the evening. There will be impromptu speech-making, singing, and a quantity of music and other forms of entertainment to make the evening pleasant for the visitors.

Members Oppose Banquet.

Byron S. Adams, chairman of the committee on arrangements, said that the idea of a banquet as a fitting climax to the convention was abandoned at the request of the members. They declared that their visit here would be primarily for business, and the holding of a banquet would only necessitate their staying away from their respective business longer than necessary.

However, several jaunts about the city and its attractive suburbs have been planned for the visitors. A ride to Mt. Vernon, on one of the river steamers has been arranged for Thursday afternoon, the last day of the convention, and various automobile expeditions have been arranged for the women of the party.

In the entertainment of the visitors the Washington printers will be assisted by a committee representing the Baltimore members of the Typothetae.

OCEAN SHIPS READY FOR TRIP TO BOSTON

Yale and Harvard Steamers Are Newly Equipped With Oil Burning Systems.

The Metropolitan Steamship Company's steamer Yale, which, with her companion boat, Harvard, will run between New York and Boston this summer, will make her trial trip with new fuel, around New York harbor and down the bay on Thursday, May 13. The Yale and Harvard have been equipped with oil burning systems and will use oil for fuel entirely.

Thursday's trip will be for the purpose of giving the Yale a try-out before putting her into regular service. The use of oil as fuel, officials of the Metropolitan line think, will prove a great advantage.

ART ENTHUSIASTS MEET HERE TUESDAY

Federation Aims to Unify Workers and Interests and Increase Appreciation.

With delegates from art societies, museums, universities and clubs in all sections of the United States present, the first annual convention of the American Federation of Arts will be opened for a three days' session Tuesday morning in the New Willard, with Charles L. Hutchinson, of Chicago, president of the organization, in the chair.

Secretary of the Treasury Franklin MacVeagh will deliver the address of welcome.

The American Federation of Arts was formed one year ago with the object of unifying art workers, art interest and increasing appreciation of fine arts. Within a year it has sent out notable exhibitions of American paintings to different cities and towns. It has issued lectures on fine arts subjects, illustrated with slides, and has been a bureau of general information on arts, keeping the different organizations in touch with each other.

EXNICIOS GOES TO ST. LOUIS.

J. T. Exnicio, treasurer of the Society for Savings, will leave for St. Louis tomorrow, where he will represent the society at the National Conference of Charities and Corrections.

PERMISSION SOUGHT TO REMOVE MAINE

Cuba Said to Favor Raising of Wreck—More Money May Be Asked.

Negotiations for permission to move the wreck of the battleship Maine from Havana harbor have been entered into with the Cuban government. This consent is necessary before the work can be begun. No opposition is expected, as Cuba is anxious to have the wreck removed because of obstruction in the harbor.

Officers of the War Department do not regard the appropriation of \$100,000, which was provided by Congress several days ago, as sufficient to complete the work. It is expected, however, that Congress will provide additional money.

SEEK NEXT SESSION OF VEILED PROPHETS

Delegates from Washington to the first annual session of the Supreme Council of the Mystic Order of Veiled Prophets in Cleveland, June 3-5, will endeavor to have Washington selected as the next meeting place of the order. The delegates are not successful in bringing the convention here in 1911 they will try to obtain a promise for 1912.

Edward S. Schmidt will head the delegation of prophets, as they are styled, from Washington and is prepared to carry out a loud campaign for the National Capital, when in Cleveland.

DR. MEYER HERMAN DIES IN MANILA

Born in Washington in 1861—Answered Call for Service in War.

Word has been received by cablegram of the death of Dr. Meyer Herman, in Manila. Dr. Herman was born in Washington in 1861, and was a son of the late J. P. Herman. When the call for physicians was issued during the war with Spain, Dr. Herman offered his services and served in Cuba. He was stricken with typhoid fever soon afterward, and, following his recovery, he went to the Philippines, where he lived for ten years preceding his death.

HAMLIN CHURCH HONORS MAJOR HALL

The official board of the Hamline Methodist Church tendered a reception last night to Major William A. Hall, in honor of his seventy-fifth birthday.

George W. F. Swartzell, chairman of the official board, was in charge of the arrangements. The Rev. Charles E. Guthrie, pastor of the church, and Miss Clara Roach made congratulatory addresses, and later E. L. Booreman presented Major Hall with a handsome silk umbrella. Major Hall was formerly a member of the old District Legislature, and has been connected with the Hamline Church for nearly thirty-five years.

LONDON EMBASSY NOT FOR FAIRBANKS

State Department Officials Discredit Rumored Offer of Appointment.

Rumors that former Vice President Fairbanks is to be made ambassador to the Court of St. James in place of Whitelaw Reid, the incumbent, are not taken seriously by officials of the State Department.

The mention of Mr. Fairbanks' name in this connection today brought forth the fact that he was offered the ambassadorship to Great Britain something more than a year ago and declined.

Shortly after President Taft was inaugurated he and Secretary Knox agreed upon Mr. Fairbanks as the most available man. The former Vice President expressed the highest appreciation of the offer, but said it would be impossible for him to accept the appointment. It is understood that Mr. Fairbanks' lack of wealth was the chief reason for his refusal.

Mr. Taft and Mr. Knox then decided it would be well to allow Mr. Reid to remain in London indefinitely. Rumors have crept out recently, however, to the effect that a change in the London embassy is imminent.

DATA FOR HOMEGOERS.

A list of hotels in Ireland agreeing to make a reduction of 10 per cent of their regular rates to holders of membership cards in the Irish Homegoing Association has been issued by Joseph D. Sullivan, secretary of the organization. Copies of the book are being distributed among the members.

A Lens Made to Order For Every Eyesight Ill

Why Leese Lenses Fill Your Exact Requirements

There's just as much difference between Leese Lenses and the ordinary kind as there is between the tailored garment and the ready-made. Leese Lenses are made in the largest and best equipped optical plant south of New York; they're made to fill your prescription exactly, and are made under the direct supervision of Mr. Leese himself to insure their unvarying correctness. Every possible means is used to attain perfect results, and it is because Leese Lenses are perfect that they're so successful and satisfactory.

Lenses for the Correction of Stigmatism

are ground with especial care—just as shown above. A special machine and a special workman are detailed for this work, and the care and skill with which it is done assure results of unrivalled quality. It means satisfaction to bring your optical prescription to Leese; such satisfaction as only a complete equipment combined with skillful workmanship can produce.
